Dear Dental Educator,

Do you want to help your students find a job when they graduate? I'd love to help!

Being a Registered Dental Hygienist and mother of twin girls, I needed more flexibility in my schedule, so I started temping. It was frustrating to find jobs in one place. There needed to be a better way for dental practices and dental professionals to connect more efficiently and effectively. So I started DentalPost with the vision of improving lives by helping students and dental professionals find the job they love and build teams that excel.

Over 850,000 dental professionals have joined our DentalPost community. It's a great way for new graduates to start their careers as we are now the nation's number one job board for dental professionals with more than 55,000 registered dental offices on our site. Job seekers can create a FREE resume profile and learn more about themselves by taking our FREE assessments.

We invite you to join our DentalPost community at www.dentalpost.net to help your graduates find their first job. You can find our easy-to-use instructor portal at www.dentalpost.net/schools to access and share valuable information with your students. Enclosed is a poster for your employment board and handouts for your students.

If you have any questions, please feel free to contact me directly or call our customer service department at 678-805-7820.

Warm regards,

Tonya R. Lanthier, RDH

CEO and Founder of DentalPost
